

Alma, which offers digital solution for instalment payments for e-commerce websites, merchants and shops, requested Parallel Avocats' support for the compliance of the processing of personal data.

1. Challenge

Growing strongly, Alma wanted to intensify its legal compliance efforts in connection with the processing of personal data.

2. Solution

Parallel Avocats carried out in-depth research, analysis and legal interpretations work in order to assess the situation of the company regarding the GDPR and the French Law on personal data (loi informatique et libertés). On this basis, a roadmap was set to plan legal and operational compliance actions.

3. Bénéfices

Parallel Avocats' intervention enabled Alma to gain comfort in assessing its situation with respect to regulations on personal data and also to upgrade its technical legal skills in this field. As for any data driven company, this step proved to be a factor in accelerating Alma's growth.

Avis du client

« We engaged Parallel Avocats for their high skills regarding personal data Regulation and their knowledges of the financial and operational business model of fintech specialized in payment operations such as Alma ».
