

## Parallel Avocats represented WeMaintain in its €30m Series B financing led by Red River West

Parallel Avocats represented WeMaintain, a proptech company specialized in elevator maintenance and fire safety, in its €30m Series B financing led by Red River West alongside Bpifrance Digital venture and Verve Ventures, and with the renewed support of its historical investors Eurazeo, Raise Ventures and Financière Saint James.

This new financing round will allow WeMaintain to expand into new markets (the opening of an office in Singapore was announced at the same time as this financing round) and to develop in new verticals in order to become the world leader in smart building equipment.

The Parallel Avocats team was led by Jérémie Aflalo (partner) and included Awa Yaffa (associate).
