

Parallel Avocats represented Qobra in its €10m Series A Financing

Parallel Avocats represented Qobra in its €10 million Series A Financing round led by Singular, with the renewed support of Breega and the participation of UK-based investor Revenue Syndicate.

Qobra is the leading sales commission platform. Qobra automates commission calculations and provides sales representatives with total transparency over their objectives, and management teams and senior management with visibility over commercial performance.

With this new financing, Qobra will continue its growth and accelerate its international expansion, especially in the UK, opening a new office in London early 2024.

The Parallel Avocats team that advised Qobra comprises Jérémie Aflalo (partner) and Awa Yaffa (associate).
