Parallel Avocats advised Annette in its €2m Seed financing round

Parallel Avocats has advised Annette in its €2m Seed financing round backed by Redstone, Ring Capital, AFI Ventures and Generations.

Founded by Gwen le Calvez and François-Xavier Trancart, Annette develops a remote monitoring and care solution for patients with chronic conditions, with a focus on structured GLP-1 obesity care. Its platform synchronises care teams around clinical and patient-reported data to detect early signals and structure care pathways across Europe.

The Parallel Avocats team that advised Annette comprises Jérémie Aflalo (partner) and Awa Yaffa (associate).
