

Parallel Avocats advised Agriodor in its €15m Series B financing round

Parallel Avocats has advised Agriodor in its €15m Series B financing round backed by Région Sud Investissement and CAAP Création (Crédit Agricole Alpes-Provence), with the reinvestment of historical investors Capagro, Ambra Capital and SWEN Capital Partners.

Born out of French agronomic research, Agriodor develops olfactory biocontrol solutions: scents designed to alter the behaviour of pest insects and protect crops without pesticides. The funding will support the international deployment of its technology and Agriodor's ambition to become a global biocontrol specialist.

The Parallel Avocats team that advised Agriodor comprises Jérémie Aflalo (partner) and Awa Yaffa (associate).
