Parallel Avocats has advised altrove in its €7.7m Series Seed financing round led by Alven and supported by Bpifrance, Contrarian Ventures, Emblem and Entrepreneurs First.

Founded in 2024 by Thibaud Martin and Joonatan Laulainen, altrove develops sustainable materials through an integrated platform combining artificial intelligence, automated synthesis and advanced characterisation, offering alternatives to critical materials and contributing to European industrial sovereignty. The funding will accelerate the transition of its AI-designed materials from lab to industrial scale.

The Parallel Avocats team that advised altrove comprises Jérémie Aflalo (partner) and Candice Daull (associate).
