

## Parallel Avocats advised DermaScan in its €2.5m Seed financing round

Parallel Avocats has advised DermaScan in its €2.5m Seed financing round backed by Ring Capital, Techmind, Kima Ventures, 199 Ventures and Hexa, alongside business angels Céline Lazorthes and Jean-Charles Samuelian.

Founded in late 2024 with startup studio Hexa, DermaScan operates skin cancer screening centres combining artificial intelligence and innovative protocols to accelerate early detection and ease the workload of dermatologists. Following the opening of its first two centres in Paris, the funding will support the opening of new centres in France's main cities.

The Parallel Avocats team that advised DermaScan comprises Jérémie Aflalo (partner).
