

## Parallel Avocats advised Finary in its acquisition of Affluent

Parallel Avocats has advised Finary, the next-generation wealth management platform, in its acquisition of Affluent — the first acquisition in Finary's history, announced just weeks after its €25m Series B.

Founded in 2023 by Thomas Vuchot and Thomas Brach, Affluent built a digital financial planning and wealth advisory platform. Its team joins Finary to accelerate the development of AI features and add new financial products to the platform.

The Parallel Avocats team that advised Finary comprises Jérémie Aflalo (partner) and Awa Yaffa (associate).
