

Parallel Avocats advised Hexa Scale in its majority investment in Filiz

Parallel Avocats has advised Hexa Scale in its €6m investment in Filiz, through which Hexa becomes the company's majority shareholder.

Based in Rennes, Filiz develops a SaaS platform for the administrative and financial management of apprenticeship training centres (CFA) and private higher education institutions. The funding will support the development of new features and the launch in early 2026 of an all-in-one product turning the solution into a complete educational ERP. Hexa Scale is the arm of startup studio Hexa dedicated to backing high-growth technology companies.

The Parallel Avocats team that advised Hexa Scale comprises Jérémie Aflalo (partner) and Awa Yaffa (associate).
